DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 7 and 8 to an invention non-elected without traverse. Accordingly, claims 7 and 8 have been cancelled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance for claims 1-6 is that applicant's claimed invention includes a liquid-jet head that has a passage-forming substrate where a region of the passage-forming substrate facing the piezoelectric element holding portion is thicker than an outside region of the passage-forming substrate facing the piezoelectric element holding portion, when the piezoelectric elements are in a non-activated state. It is this limitation, expressed in the claimed combination not found, taught, or suggested in the prior art that makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
